Appendix I.   Applications Inventory

Office of Administrative Law Judges (OALJ)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
DevDock	Electronic tracking system for case dockets	NITC, Kansas City, Missouri	Hearing Clerk's Office	None	IP	To hear and decide cases brought by various agencies

Agricultural Marketing Service (AMS)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
Processed Commodity Inventory Management System (PCIMS)	Tri-agency system for FSA, AMS, and FNS	National Information Technology Center (NITC)				
Market News Information System (MNIS).	A repository of market news statistical data reported by Six (6) AMS program entities	HQ, Memphis, TN; Madison, WIBenton Harbor, MI, Boston, MA,Chicago, IL, Dallas, TX, Fresno, CA,	AMS Commodities:Fruit & Vegetable ProgramCotton	Brokers, Farmers	Banyan IPOracle SQL*Net for Dos	Market news data.Fruit & Vegetable ProgramCotton
		Los Angeles, CA, Miami, FL,Bronx, NY, Orlando, FL,Philadelphia, PA, Phoenix, AZ,Raleigh, NC, San Fran, CA,Thomasville, GA, Yakima, WA,Columbia, SC, DesMoines, IA, Dodge City, , Greeley, CO,Omaho, NE, Portland, OR,Richmond, VA, Atlanta, GA,Bell, CA, Jackson, MS,Lexington, KY, Seattle, WA,Austin, TX, St. Louis, MO,Detroit, MI, Asheville, NC,Pittsburgh, PA, Oklahoma City, OK,Baton Rouge, LA, Bridgeton, NJ,New Holland, PA, Moses Lake, WA,Springfield, IL, St. Paul, MN,St. Joseph, MO, Jefferson City, MOSpringfield, IL, St. Paul, MN,Springfield, MO, Little Rock, AR,Torrington, WY, Sioux City, IA,Sioux Falls, SD, San Antonia, TX,Nashville, TN, Clovis, NM,Billings, MT, Louisville, KY,Montgomery, AL, Las Cruces, NM,Minneapolis, MN	TobaccoLivestock and SeedDairyPoultry			TobaccoLivestock and SeedDairyPoultry
MNCS – Market News Communication System	The MNCS handles the submission, processing, and distribution of time sensitive market news reports back to headquarters and field offices, secondary disseminators (e.g. Reuters), and the public.	Same as MNIS	Fruit & Vegetable ProgramCottonTobacco	transmission network,and others, alongwith the public via	TCP/IPDial-up networking	Fruit & Vegetable ProgramCottonTobacco
			Livestock and Seed	BackWeb channel		Livestock and Seed
			Dairy			Dairy
			Poultry			Poultry

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
Poultry Volume Reporting System	An Oracle 6 on SCO Unix application used for tracking volume of poultry inspections.	Little Rock AR, DesMoines, IA			Banyan IP Oracle SQL*net Dos	
Fruit and Vegetable Processed Products Branch Billing System	An electronic billing system used to batch via 3270 files to NFC through Kansas City . Primarily used for tracking payments and billings handled by NFC Used by F&V fresh and processed products	About 15 billing offices	F&V Programs	N/A	Banyan 3270 Kermit	

Agricultural Research Service (ARS)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
Genetic Evaluations (DHIA)	Programs to maintain a national database of milk yields.	Beltsville, MD	Researchers at AIPL	General public query	IP - WEB	Animal Improvement Programs Laboratory
Research Management Information Systems (RMIS)	Research program management and budgeting	Beltsville, MD	ARS locations nation-wide	General Public dial-up VT100 or 2110 emulation (low usage)	dial-up 2110 emulation through a modem pool and IP/IPX over IAN/ARS WAN	National Program Staff
Germplasm Resources Information Network (GRIN)	Inventory system for the national genetic resources program.	Location of Application Server(s): Beltsville, MD	Researchers at ARS laboratories in US	National and international research community	IP - Telnet, Web, FTP and E-mail	National Germplasm Resources Program
National Nutrient Databank System (NDBS)	System to manage the acquisition and dissemination of information on the nutritional composition of foods.	Nutrient Composition Laboratory, Riverdale, MD	Nutrient Composition Laboratory, Riverdale, MD	General Public	IP - WEB	Human Nutrition Research Program.
Systematic Entomology Laboratory Identification System (SELIS)	Entomology reference database	Beltsville, MD	Systematic Entomology Laboratory staff located at the Smithsonian Institution, Washington, DC	None	TCP/IP over SMDS - Telnet	Entomology identification service
Library Automation System (ISIS)	Online library catalog, indexing database, circulation system, etc.	Beltsville, MD	Agency Users (Clients): ARS researchers and other USDA employees nation wide. Some USDA offices use dial-up.	General public	IP - Web and Telnet	National Agricultural Library (NAL)
Research Database & Management Information System	supports Meat Animal Research Center (MARC) research program in genome mapping and qualitative identification.	Clay Center, NE	Research and support staff at MARC	General public (read only)	IP - Web	Animal Production Research

Animal & Plant Health Inspection Service (APHIS)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Areas
LARIS (Licensing and Registration Information System)	MIS for animal licensing and registration	Riverdale, MD	AC/IES	Cooperators/Investigators	Client/Server	Protection
Compliance Investigative Tracking System	MIS for licensed animal compound compliance/investigation	Riverdale, MD	AC/IES		Client/Server	Protection
)Information System Upgrade Project	Multi-tier system of administrative Agency functions	Minneapolis, MN	ABS	None	TCP/IP	Finance/Personnel/Property
Generic Database	Animal Disease information system	Nationwide	VS/AC/IES		TCP/IP	Protection
WS Management Information System	MIS for wildlife control	Fort Collins, CO	WS	None	TCP/IP	Protection
User Fees System	Collection system for public service fees	Nationwide	VS/PPQ/ABS	None	TCP/IP	Finance
AQI-Monitoring (replaces WADS)	Import pest monitoring system	Nationwide	PPQ	Cooperators	TCP/IP	Protection
PITS (Permits Issuance and Tracking System)	MIS for plant permits and tracking	Nationwide	PPQ	None	TCP/IP	Authority
National Poultry Improvement Plan (NPIP)	Poultry disease tracking and reporting system	Conyers, GA	VS	None	Client/Server	Protection
EPEC (Export Poultry Electronic Certification System)	Poultry certification system	Fort Collins, CO	VS	None	TCP/IP	Authority
Import Tracking System	Tracking system for importation of animals	Fort Collins, CO	VS	None	TCP/IP	Authority
PIN 309 (Port Information Network)	Monitoring information for port activities	Riverdale, MD	PPQ	None	Client/Server	Protection
VAS (Veterinary Accreditation System)	State Veterinary Accreditation tracking system	Nationwide	VS	None	Client/Server	Guidance
Laboratory Information Management System	MIS for pest eradication and scientific analysis of pesticide treatment	Gulfport, MS	PPQ	None	Client/Server	Protection
Export Certification Program	Monitoring of animal exports	Fort Collins, CO	VS	None	Client/Server	Authority
National Agriculture Pest Information System	Tracking of pests	IA	PPQ	None	Client/Server	Protection
Pesticide Registration Information Management System (PRIM)	Supports Pesticide and Disease Management	Riverdale, MD	PPQ/VS/WS	None	Client/Server	Protection
Status of Funds	Supports reporting requirements of financial data	Gulfport, MS	PPQ	None	Client/Server	Finance
(National Animal Health Monitoring System) NAHMS	National database of animal disease/health monitoring	Nationwide	VS	None	Client/Server/ Dial-in	Protection
Export Health Certificates	Certification system for exportation of US animals and byproducts	Fort Collins, CO	VS/IS	Public/State/Cooperators	Client/Server	Authority

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Areas
LARIS (Licensing and Registration Information System)	MIS for animal licensing and registration	Riverdale, MD	AC/IES	Cooperators/Investigators	Client/Server	Protection
Federal Emergency Data System (FEDS)	Emergency Disease tracking	Fort Collins, CO	VS	None	Client/Server	Authority

Office of the Chief Economist (OCE)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
NOAAPORT/AWIPS	Advanced Weather Information Processing Software	Washington, D.C. & NITC in Kansas City	OCE	None	TCP/IP - XTERM	Weather
ArcView GIS	Geographical Information System	Washington, D.C.	WAOB/JAWF	None	IPX	Weather

Cooperative State Research, Education, and Economics Service (CSREES)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
CRIS (Current Research Information System)	All current research projects funded by USDA	Beltsville, Maryland	entire agency	Land Grants and other USDA Agencies	TCP/IP (web, FTP, telnet, email)	Research Grants
REGIS (Research Extension Grant Information System)	Grant/Financial Tracking System	Washington, D.C.	Accounting Group	None	TCP/IP	Grant/Financial Tracking System
GMTS (Grants Management Tracking System)	Grants Management and Tracking	Washington, D.C.	CSREES	None	TCP/IP	Award Administration, Program Support for proposal submissions
RBASE	Internal databases for researchers use in tracking projects	Washington, D.C.	CSREES	None	Dos/Windows Platform	Proposal review and award, budgetory and scientific

Economic Research Service (ERS)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
US Trade	US Trade Data Time Series Database and Reporting System	Washington DC	HQ	None	NetBeui	Economic Research
Farm Income	Farm Income Data Time Series Database and Reporting System	Washington DC	HQ	None	NetBeui	Economic Research

Farm Service Agency (FSA)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
1990-1995 Disaster Program Payment System	Calculates gross payment amounts for participating program crop losses caused by drought, flood, and other natural disasters. Performs payment calculations and prepares checks for mailing.	INACTIVE SYSTEM	FSA		Twinax & IPX/Twinax @ KCMO	Program
1993 Disaster Program Payment System	Calculates gross payment amounts for all crops and all 1993 disasters, including flooding or drought. Performs payment calculations and prepares checks for mailing.	INACTIVE SYSTEM	FSA		95%TCP/IP&5% IPX/SNA	Program
Acreage Reporting & Compliance Systems	Includes design, development and maintenance of automated systems to record, process, and maintain producer crop acreage reports,	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Program

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	producer shares, selection of farm crops for inspection, determined acreage, determination of program and acreage compliance,					
Amortization Schedule	Used to calculate payments for monies owed FSA due to overpayments. The calculation options are number of payments, installment amount and total payments.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Program
Appraisal Software	Software provides a standard, consistent approach to the development of real estate appraisals necessary to conform to required appraisal standards.	Counties	FSA		Dial X.25	Program
Assessment/Promotion Fee System	Controls & accounts for Assessment and Promotion Fees deducted from producer loans. Provides monthly payment registers and reports to requesting entities.	Kansas City, MO	FSA	Commodity Markets	95%TCP/IP&5% IPX/SNA	Administrative Support
Assignment/Joint Payment System	Provides for establishment & maintenance of Assignment (CCC-36) & Joint (CCC-37) Payment authorizations. Automatically issues checks to authorized assignees & joint payees.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Administrative Support
Automated Claims System (SCOAP) (ACS)	Provides a means for local office personnel to establish, adjust, refer, transfer, collect & control CCC & FSA claims against producers on a Local Office Claim File. Provides numerous validity & edit checks on screen input using internal & external contr	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Administrative Support
Automated Collection Application System (ACAS)	ACAS maintains information on producer claims transferred to the KCMO Office and commodity office debt. It provides the ability to produce reports and refer debt to IRS, collection agencies, Department of Justice, and credit bureaus.	Kansas City, MO	FSA		TCP/IP & IPX	Administrative Support
Automated Cotton Reporting System (ACRS)	Receives cotton bale detail from Cotton Cooperatives and Loan Servicing Agents and provides summarized data to KCMO for financial, management and statistical reports.	Kansas City, MO	FSA	Cotton Cooperatives	95%TCP/IP&5% IPX/SNA	Program
Automated Information Management (AIM)	Assists technical programmers in regeneration, edit and submission of Job Control Language in the MVS	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Technical Services & System Operations & Maintenance

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	environment.					
Automated Records Mgmt of Producer Claims (Imaging)	This system modernizes claims functions through implementation of electronic imaging and redesign of the business processes for claims examination, verification, collection processes and transferring debt from County Offices to the Producer Claims Branch	Kansas City, MO	FSA		TCP/IP & IPX	Administrative Support
Automated Travel Budget Log	This is an automated system that tracks obligated and actual Division travel funds.	Kansas City, MO	FSA		TCP/IP & IPX	Information Management
Burley Tobacco Quota Systems	Design, development and maintenance of automated systems to manage burley tobacco programs at County level with additional systems to manage tobacco programs at State/National levels. Provides program notices and management reports. Records and processe	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Program/ Information Management
Canceled Cotton Bale System (CCBS)	Supports canceled cotton bale receipts. Provides improved integration of functions, reduces amount of paperwork processed at KCMO & KCCO and provides accurate and timely information to increase the organization's level of control over inventory.	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Program
Cash Collections	Integrates cash collections for farm credit into the current county office deposit mechanism.	Counties, States	FSA		TCP/IP	Program/ Administrative Support
Cash Receipts System	Provides for the accumulations of program refunds, loan repayments, and miscellaneous service fees entered through data entry screens or received through an interface with other automated applications.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Program/ Administrative Support
Catastrophic Crop Insur. Reconciliation Sys (CAT MF)	Collects crop insurance financial accounting transactions received from the FMS-SCOAP splitoff. Reconciles the Risk Management application data received from FSA offices to the financial data received by KCMO via a transmission process. Produces a tur	INACTIVE SYSTEM	FSA		95%TCP/IP&5% IPX/SNA	Administrative Support
Central Claims Data Base System	Maintains data transmitted from State & County Offices. Provides batch updating & on-line and batch reporting. Maintains FSA Claim and	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Administrative Support

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	CCC Claim totals not maintained at States & Counties. Passes accounting transactions to the Claims Accounting Segment					
Centralized Disbursement System (CDS)	System allows KCMO to disburse pymts to various entities nationwide. Allows users to enter miscellaneous pymts that were previously handled manually. Interfaces in an automated manner with other various feeder systems from which disbursements must be mad	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Program
Check Accounting System (CAS)	Maintains complete on-line file of all Commodity Credit Corp. (CCC) checks issued for reconciliation with payment data received from Federal Reserve Banks. Provides history file of checks, on-line terminal capability, controls duplicate issues, and excep	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Administrative Support
Check Writing System	Provides for the issuance, reissuance, cancellation, or voiding of CCC Checks (CCC-184) through data entry screens or through an interface with other automated applications. Maintains a check history file for audit trail and inquiry purposes.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Administrative Support
Common Receivable System (SCOPPS) (CRS)	Provides a means for local office personnel to establish a receivable, record a collection, transfer to claim status, transfer to note receivable, writeoff a small balance, prepare demand letters, correct a receivable, inquire and print receivable status	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Administrative Support
Common Routines	Subroutines used by other programs for such functions as date checking, check digit verification, Social Security number formatting, etc.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Technical Services & System Operations & Maintenance
Concentration Banking System (CBS)	Allows participating offices to confirm a deposit made at the County's local bank and immediately transmit the deposit amount to the State Office. State Office processing provides for deposit information transmitted from the Counties and phone-in deposit	Counties, States	FSA	Riggs National Bank	Twinax & IPX/Twinax @ KCMO	Administrative Support
Configuration Management System (CMS)	System provides for the processing and control of SCOAP computer equipment. Subsystems support the areas of purchasing, invoicing, delivery, inventory, and the	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Administrative Support

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	configuration of systems based upon County workload.					
Conservation Reporting & Evaluating System (CRES)	Tracks producer request for cost-sharing assistance to solve soil, water, & related erosion problems, processes entire life cycle from initial request, willingness, needs determination, approval/fund obligation, to final performance. Provides automated l	Counties, States	FSA	NRCS, FS	Twinax & IPX/Twinax @ KCMO	Program/ Information Management
Conservation Reserve Program (CRP)	Records & evaluate bids, records & maintains contracts that producers enter into with USDA, issues & corrects annual rental payments, & produces mgmt & statistical reports.	Counties, States	FSA		95%TCP/IP&5% IPX/SNA	Program/ Information Management
Conservation System (Statistical Report)	Reports the fiscal year activity for FSA programs such as Agricultural Conservation Program, Colorado River Salinity Control Program, Emergency Conservation Program, Tree Assistance Program, Water Bank Program, Wetlands Reserve Program and more. Reports	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Information Management
Cooperative Marketing Association System	Maintains a master file of Cooperative Marketing Association & Loan Servicing Agent members that may have loan activity during a certain period of time. Information includes acres, yields, cropland factors and members of joint operation along with each m	Counties, States	FSA	Cooperative Marketing Associations, Loan Servicing Agents	Twinax & IPX/Twinax @ KCMO	Program
Coordinated Assessment Review (CAR)	RENAMED TO NIR	National, States	FSA			
CORE Accounting System	Updates and modifies the current accounting system to provide the data and processes to fulfill government accounting requirements. General functional requirements of accounting classification code structure, audit/internal controls, and reporting are in	Kansas City, MO	FSA		TCP/IP	Administrative Support
Cotton Inventory Management System (CIMS)	Designed to control CCC cotton inventory operations including receipt of documents in the acquisition of cotton, problem resolution regarding acquisitions, making storage payments, inventory reconciliation with related reports &	Kansas City, MO	FSA	Industry	SNA 3270	Program

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	registers, & preparation o					
Cotton Loan Management System (CLMS)	Supports matching of price support activity from FSA Counties, CMAs and LSAs with electronic receipt data, matching activity with previous price support to prevent duplication of benefits.	Counties	FSA		99%TCP/IP&1%IPX/SNA	Program
Cotton Receipts Tracking System (CRTS)	Supports exchange of electronic cotton warehouse receipt data. Receives & validates detail electronic transmissions from Electronic Warehouse Receipt Providers, obtains classing, system processing, error resolution, processing interface electronic files	Michigan (EDS)	FSA	Industry	SNA3270/ASYNC/Dialup/ISDM/TCP/IP	Program
Cotton User Market Certificate System (CUMC)	Records information and provides certificates or checks to cotton exporters and domestic mill users of cotton who are eligible participants engaged in purchasing or exporting cotton.	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Program
Cotton Warehouse System (CWS)	Supports warehouse exam and application invoice fee processing for KCCO. Creates invoices for collection of fees, system processing, maintains warehouse names, addresses, and storage capacity, creates electronic files for examiners, error resolution, gen	Michigan (EDS)	FSA		TCP/IP	Administrative Support
County Combination/Decombination	Software splits and/or combines files when a County Office is split into multiple County Office sites or when a multiple County Office site is merged into one site.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Technical Services & System Operations & Maintenance
County Data File Upload	System supports the shipment of selected files from Counties to KCMO for loading into IBM's tape cartridge files and/or relational data base - DB2. Programs allow specialists to extract needed date for inspection, and to also perform "what if" analysis f	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Technical Services & System Operations & Maintenance
County Farmland Value Survey	System allows each County to prepare a farmland value survey, which is edited for consistency against the farmland value survey for prior years. Data includes low, average and high market values for different types of farmland. Data is	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Information Management

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	made available to					
County Office Administrative Expense System (COE)	Records & maintains data on fund allocations for administrative expenses & CCC check limitations, maintains positions, payroll, and withholding information for Counties. Produces W-2s, reports income & tax withholding info. to SSA/IRS & State taxing auth	Counties, States	FSA	OPM, SSA, IRS, NFC	Twinax & IPX/Twinax @ KCMO	Administrative Support
County Office Fund Allocation System (COFA)	Gathers actual and estimated workload, expense, and workday data from Counties. Collects workload data and makes fiscal year fund allocations to County Offices based on regression coefficients & mathematical formulas developed by the COWMP & allocation	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Information Management
County Office Work Measurement Program (COWMP)	Accepts work measurement reports from six percent of County Offices on a revolving 3-year cycle. Records units & time expended daily; reports quarterly. System supplies regression coefficients to the COFA system to determine funding & staffing guides fo	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Information Management
County Operations Reviewer Program (CORP)	System randomly selects and lists detail information about actual farms, producers, CRP Contracts, etc. There are about 25 different selection and report options.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Information Management
Customer Name & Address Subsidiary Files	Maintains producer subsidiary files for use in controlling producer payment limitations and eligibility under several FSA farm programs.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Program
Customer Name & Address System	Maintains the name and address and other information for each farm producer and farm owner with a farming interest in farms located in each County.	Counties, States	FSA	EDSO(OAS)	Twinax & IPX/Twinax @ KCMO	Program
Cybrarian	Provides electronic access to current farm production and financial planning information with access to Internet information through the FSA Bulletin Board System.	Counties	FSA	Industry	TCP/IP	Technical Services & System Operations & Maintenance
Dairy Refund - Payment Program	Program allows milk producers to establish milk producing base levels, charging a fee when marketing the milk, and then refunds the fees to eligible producers upon application	INACTIVE SYSTEM	FSA		95%TCP/IP&5% IPX/SNA	Program

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	when they do not market milk in excess of their established base level.					
Data Control System (DCS)	Serves as the entry point for all accounting transactions created by other automated applications or entered through accounting application screens needing SCOAP accounting services, performs transaction validation, maintains balancing between accounting	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Administrative Support
Debt & Loan Restructuring System (DALR$)	Decision support tool to determine the optimal debt restructuring alternatives and develops a plan of action that is most advantageous to both the Government and the borrower.	Counties	FSA			Program
Direct Deposit System	Provides for the establishment, verification and transmission of electronic funds transfer of payments for County Office employees and producers. Maintains history files for audit trail, correction activities, and inquiry purposes.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Administrative Support
Disaster Annual Program Reports	Provides reports upon request from ITSD and other analytical and statistical Washington personnel to analyze disaster payments for program administration and planning.	INACTIVE SYSTEM	FSA		95%TCP/IP&5% IPX/SNA	Information Management
Disk Space Management	Manages disk space in the State & County Offices. System deletes nonstandard names files and collects free space on the disk, enabling the computer to run more efficiently.	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Technical Services & System Operations & Maintenance
Electronic Bid Entry System (EBES)	The Electronic Bid Entry System (EBES) automates the bid entry portion of the commodity procurement process. The application allows for invitation and bid creation, public/private encryption of the bid, bid transmission via the Internet, and integration	Kansas City, MO	FSA	Commercial Vendors	TCP/IP & IPX	Program
Electronic Data Transfer - AIS (Application Interface Sys)	The Application Interface System is an interface between KCCO and KCMO application systems and the EDI Translator, GENTRAN.	Kansas City, MO	FSA	FNS, Vendor Trading Partners	TCP/IP & IPX	Information Management
Emergency Loan Processing System	Software provides employees a means to process emergency loan	Counties	FSA	Emergency Loan Jump Teams	Dial X.25	Program

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
(ELPS)	applications in disaster areas. Data is downloaded from the Farm and Home Plan.					
End-of-Year Process	Produces State reports showing randomly selected entities and joint operations and their producers who received payments. Also produces National analysis reports.	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Program
Environmental Quality Incentives Program (EQIP)	Combines into a single program the function of Agricultural Conservation Program (ACP), Water Quality Incentives Program (WQIP), Great Plains Conservation Program (GPCP), and Colorado River Basin Salinity Control Program (CRSCP). To carry out the single	Counties, States, National	FSA	NRCS	99%TCP/IP&1%I PX/SNA	Program/ Information Management
Executive Information System (EIS)	Provides management information and performance data.		FSA		TCP/IP	Information Management
Export Tracking System (ETS)	The Export Tracking System is a history tracking system used to maintain automated files of loss history of commodity exports prior to the losses becoming a claim. This system provides from tracking, reports, and letters.	Kansas City, MO	FSA		TCP/IP & IPX	Information Management
Farm and Home Plan (FHP)	Provides a balance sheet, tracks cash flow, creates an annual financial profile and five-year budget plan for the borrower.	Counties	FSA			Program
Farm Automated Record Management System (FARMS)	Interfaces with the Farm and Home Plan and provides a record keeping system based on the Farm Family Record Book.	Counties	FSA	Industry		Information Management
Farm Credit Monthly Management Report (FCMMR)	Provides information by state and county on number of borrowers reviewed, appraisals, loan checks, bankruptcies, foreclosures, etc.	Counties, States	FSA	RD	TCP/IP SNA	Information Management
Farm Programs Management Systems	Includes design, development and maintenance of tables and files that provide common information to automated systems concerning County Office, specific farm crops and various FSA farm programs. Maintains basic farm, farm crop and producer information; fa	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Program
Federal Assistance Awards Data System (FAADS)	Receives outlay data for various programs administered by FSA and listed in the Catalog of Federal Domestic Assistance and provides this activity quarterly to the National	Kansas City, MO	FSA	NFC	95%TCP/IP&5% IPX/SNA	Administrative Support

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	Finance Center located in new Orleans, LA.					
Financial Management System (FMS)	On-line & batch update & reporting system which maintains Commodity Credit Corp. (CCC) financial data on an Integrated Data Management Management System (IDMS) data base by separate office codes.	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Administrative Support
First Handler System (FHS)	Makes payments to cotton first handlers under the First Handler Program set forth in the Food, Agriculture, Conservation and Trade Act of 1996.	Michigan (EDS)	FSA	Industry	SNA3270	Program
Flue-Cured Tobacco Quota & Allotment Systems	Design, development and maintenance of automated systems to manage flue-cured tobacco programs at County level with additional systems to manage tobacco programs at State/National levels. Provides program notices and management reports. Records and proc	Counties, States	FSA		Twinax & IPX/Twinax @ KCMO	Program/ Information Management
Food & Nutrition Service Electronic Data Interchange	The Electronic Data Interchange, EDI, for the Food and Nutrition Service (FNS) provides an interface to the Processed Commodities Inventory Management System (PCIMS) and conforms to the processing requirements established for the Food Distribution Program	Kansas City, MO; States	FSA	FNS, State Distributing Agencies	TCP/IP & IPX	Program
Former DAPA (now EPAS) Reports	Software collects pertinent data at the County level and produces County level reports. County reports are transmitted to State Offices and assimilated into State reports. Reports are transmitted to various Agencies within the Agriculture Department	Counties, States	FSA	NASS	95%TCP/IP&5% IPX/SNA	Information Management
General Sales Manager (GSM) Credit Guarantee	Records agreements, deliveries and losses incurred. Monitors CCC obligations, maintains accounting records & produces Treasury & Commerce reports, & provides for terminal input & inquiry.	Kansas City, MO	FSA	FAS	95%TCP/IP&5% IPX/SNA	Administrative Support/Program
General Sales Manager (GSM) Credit Sales System	Supports accounting & reporting for CCC export programs. Validates transactions, maintains master files and produces reports. System processes collection data for existing loans and produces quarterly and	INACTIVE SYSTEM	FSA		95%TCP/IP&5% IPX/SNA	Administrative Support/Program

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	annual reports.					
General Sales Manager (GSM) Title I/Title III, PL-480	PL-480 system was developed to support the Export Credit Program. Transactions are entered by FAS and WDC-FMD via remote terminals. System will support all reporting and accounting functions of FAS and FMD.	Kansas City, MO	FSA	FAS	95%TCP/IP&5% IPX/SNA	Administrative Support/ Program
Grain Inventory Management System (GIMS)	System controls, accounts for, and reports on the acquisition, storage, and disposition of all Commodity Credit Corporation owned grain inventories. Supports the enactment of USDA policies to acquire, market, and dispense of inventory to support the stab	Kansas City, MO	FSA	Grain Trade Associations	95%TCP/IP&5% IPX/SNA	Program
Guaranteed Loan Accounting System (GLAS)	Tracks loans made by private lenders but guaranteed by FSA or Rural Development. Interfaces with the Program Loan Accounting System to close guaranteed loans, interest assistance obligations and de-obligations, allotment summary and deposit fund clearanc	Kansas City, MO	FSA	RD	TCP/IP	Program
Importer Tobacco System	System validates data provided by the tobacco importers and flags incorrect data. Generates reports reporting this data and compares customs data to the importers data.	Kansas City, MO	FSA		95%TCP/IP&5% IPX/SNA	Program/ Information Management/ Technical Services & System Operations & Maintenance
Individual Development Plan System (IDP)	This system automates the training and scheduling process required between personnel and supervisors.	Kansas City, MO	FSA		TCP/IP & IPX	Information Management
IRS Reporting System (CCC-1099-A)	Provides for the extraction of IRM reportable information recorded in the Price Support System for loan forfeiture, settlement and abandonment, printing of producer reports (CCC-1099-A), and transmission of reportable data to KCMO.	Counties, States	FSA	IRS	Twinax & IPX/Twinax @ KCMO	Administrative Support
LFP/Disaster Reconciliation	Prepares a reconciliation report for 1992, 1993 and 1994 Livestock Feed Program and Disaster programs that identifies producers that received payments in excess of their effective payment limitation amounts.	INACTIVE SYSTEM	FSA		95%TCP/IP&5% IPX/SNA	Program
Livestock Feed Program (LFP)	Provides emergency feed assistance for the preservation and maintenance of livestock to eligible	INACTIVE SYSTEM	FSA		Twinax & IPX/Twinax @ KCMO	Program

Food Safety & Inspection Service (FSIS)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
Animal Disposition Reporting System (ADRS)	The Animal Disposition Reporting System (ADRS) captures slaughter totals and inspection summaries reported daily by inspectors in livestock and poultry slaughter establishments via the Ante Mortem and Post Mortem Inspection Summary (FSIS Form 6200 Series) and the Poultry Inspection - Daily Summary (Form 6000-16), respectively.	Washington, DC	All FSIS	NASS, APHIS, AMS and P&SA	TCP/IP	Food Safety
Automated Import Information System (AIIS)	The Automated Import Information System (AIIS) provides a means of allocating import reinspection in a consistent manner based on foreign plant compliance histories.	Washington, DC	FSIS/FO		TCP/IP	Food Safety
Common On-Line Reference for Establishments (CORE)	The Common On-Line Reference for Establishments is an interactive system intended both as an information collection/maintenance system, a mailing system and an information retrieval system for data on meat and poultry plants under mandatory Federal inspection.	Washington, DC	All FSIS		TCP/IP	Food Safety

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
Laboratory Sample Flow System (LSFS)	The Laboratory Sample Flow System (LSFS) system provides management data on sample inventories, sample testing, sample receipts, sample results and sample dispositions.	Washington, DC	FSIS/HQFSIS/FOFSIS /LABS		TCP/IP	Food Safety
Microbiological and Residue Contamination Information System (MARCIS)	The Microbiological and Residue Contamination Information System (MARCIS) provides information on microbiological, chemical, and pathological analyses of domestic and imported meat, poultry, and their processed products. Samples are analyzed through the combined resources of accredited laboratories and the three Technical Support Laboratories.	Washington, DC	FSIS/OAFSIS/OPHSF SIS/FOFSIS/OPPDEF SIS/OM		TCP/IP	Food Safety
Outlook (Exchange)	Outlook is an E-Mail system, a daily planner, calendar, and to-do list that helps you get the most out of your day through careful schedule management.	Washington, DC	All FSIS		TCP/IP	Food Safety
Performance-Based Inspection System (PBIS)	The Performance-Based Inspection System (PBIS) is an automated scheduling and management system for processing inspection.	Washington, DC	FSIS/FO		TCP/IP	Food Safety
Planned Compliance Program (PCP)	The Planned Compliance Program (PCP) consists of systematic reviews conducted at businesses engaged in the transportation, storage, and distribution of meat and poultry products after they leave Federally inspected establishments.	Washington, DC	FSIS/FO/DEO		TCP/IP	Food Safety
Label Tracking and Review System (LTRS)	The Label Tracking and Review System (LTRS) is used to track label applications submitted to the Label Review Branch (LRB).	Washington, DC	FSIS/OPPDE/FELCR D/LRB		TCP/IP	Food Safety

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	It also provides technical assistance to label information specialists regarding nutrient content claims.					
Nonfood Chemical Compounds and Proprietary Substances (CAPS)	The Specialty Chemical Industry submits composition and proposed use of nonfood compounds and proprietary substances they wish to sell to the Meat and Poultry Industry for approval by the Compounds and Review Branch in Beltsville, MD.	Washington, DC	FSIS/OPPDE/FELCRD/CRB		TCP/IP	Food Safety
Egg Products Database System (EPDS)	The Eggs Products Database System contains pertinent information on each egg product label approved.	Washington, DC	FSIS/OPPDE/FELCRD/LRB		TCP/IP	Food Safety
Nutritional Labeling Verification System (NLVS)	The Nutritional Labeling Verification System duplicates information that is available in FSIS's MARCIS database. It gives nutritional information from approximately 20 samples that are Laboratory tested each month.	Washington, DC	FSIS/OPPDELPTSD/VB		TCP/IP	Food Safety
Freedom of Information Act (FOIA) Information System	The FOIA information system is a windows-based database system used to track incoming FOIA and Privacy Act requests and to record information about the response to each request, including which FOIA exemptions were used if any information was withheld from the requestor as provide for in the law.	Washington, DC	FSIS/FSEMCS		TCP/IP	Food Safety
QUORUM Power	QUORUM is a workflow system and database. It was purchased by FSIS in late 1995, and implemented in March 1996. The system supports the Agency's executive correspondence function and is used for tracking, electronic storage	Washington, DC	All FSIS		TCP/IP	Food Safety

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	and routing of incoming and outgoing executive correspondence.					
Quality Control Tracking and Reporting System (QCSYSTEM)	The Quality Control Tracking and Reporting System (QCSYSTEM) provides information on approved Partial Quality Control Programs (PQC) and Total Quality Control Systems (TQC).	Washington, DC	FSIS/OPPDEFSIS/FO		TCP/IP	Food Safety
Review and Evaluation Information System (REIS)	The Review and Evaluation Information System (REIS) contains basic review data on plants from January 1985 to the present. It generates summary reports and allows for in depth analysis of review data.	Washington, DC	FSIS/FO/RS		TCP/IP	Food Safety
Sulfamethazine On-Site (SOS) Testing Program	The Sulfamethazine-On-Site (SOS) Testing Program database provides information on sulfamethazine in-plant residue tests. This test was implemented due to notification by the Center for Veterinary Medicine of the Food and Drug Administration's intent to take regulatory steps to limit the use of SMZ (Sulfamethazine) in swine.	Washington, DC	FSIS/OPHSFSIS/FO		TCP/IP	Food Safety
Calf Antibiotic and Sulfonamide Test (CAST)	The Calf Antibiotic and Sulfonamide Test (CAST) detects violative antibiotic and sulfonamide residues in bob calves.	Washington, DC	FSIS/OPHSFSIS/FO		TCP/IP	Food Safety
Fast Antimicrobial Screen (FAST) Testing Program	The Fast Antimicrobial Screen (FAST) Testing Program database provides information on antimicrobial residues in bovine animal tissues. FAST is an in-plant testing method performed by the FSIS inspector on suspect	Washington, DC	FSIS/OPHSFSIS/FO		TCP/IP	Food Safety

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	carcasses to provide a result after six hours as to the presence of antimicrobial residues.					
Serum Inventory Information System (SIIS)	The Serum Inventory Information System (SIIS) will provide information to the scientific staff about serum maintained in the serum bank, including demographic data such as animal species, age, sex, geographic location, and sample information such as quality and amount in storage.	Washington, DC	FSIS/OPHS/MD	ARS	TCP/IP	Food Safety
Swab Test on Premises (STOP)	The Swab Test On Premises (STOP) system is used to store and analyze in-plant swab test results for antibiotic residues. These tests are reported by FSIS inspectors.	Washington, DC	FSIS/OPHSFSIS/FO		TCP/IP	Food Safety
Paperwork Management and Information System (PAWMIS)	The Paperwork Management and Information System (PAWMIS) provides information on incoming mailing and printing requests.	Washington, DC	FSIS/OM/ASD		TCP/IP	Food Safety
Purchase Order Log System (PURLOG)	The Purchase Order Log System (PURLOG) keeps track of purchase orders, third party drafts, and IMPAC purchase card transactions processed from AD-700 Purchase Request Forms.	Washington, DC	FSIS/OM/ASD		TCP/IP	Food Safety
Personal Computer Document Issuance and Automated Library System (pc-DIALS)	The Personal Computer Document Issuance and Automated Library System (DIALS) is a PC-based system that maintains, distributes, and retrieves FSIS documents.	Washington, DC	ALL FSIS		TCP/IP	Food Safety
PC-Time and Attendance Remote Entry (PC-TARE) and Transmission System	The PC-Time and Attendance Remote Entry (PC-TARE) and Transmission System allows the user to use a personal computer to prepare and	Urbandale, IA	ALL FSIS		TCP/IP	Food Safety

FIRM/STAR	USDA-Owned & Leased, GSA Controlled Space	NITCKansas City	USDA - DAUSDA AgenciesOCFO	GSA, OMB	ORACLE Windows Mainframe	real property (this system is under-development to replace the systems scheduled for replace by 9/99

Risk Management Agency (RMA)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
Data Acceptance System/DAS	Edit process that evaluates data submission for accuracy & provides output to reinsured companies both for accepted and rejected data.	Kansas City - SUN SPARC2000	Actuarial Division employees work with companies to resolve submission errors. Accepted output is loaded into data bases available to all employees for analysis purposes.	Output is used by reinsured companies	TCP/IP	All areas
Actuarial Filing System/AFS	Process develops actuarial documents & files for crop programs. Files are made available to reinsured companies for dissemination	Kansas City - SUN SPARC2000	Actuarial Division develops data and makes inquiries available to all employees for analysis purposes	Output is used by reinsured companies	TCP/IP/HTTP	All areas
Agent Data Base	Data base holding valid reinsured company agent identifying information.	Kansas City - SUN SPARC2000	Data base is loaded from company data and used to validate submissions. Data base inquiries available to all employees for analysis purposes.	Output is used by reinsured companies	TCP/IP/HTTP	All areas
STATPLAN Data Base	Data base loaded with normalized data for analysis purposes	Kansas City - SUN SPARC2000	Data base is normalized and loaded from experience data bases for statistical analysis purposes.	None	TCP/IP	All areas

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
			Available to all employees.			
Accounts Receivable (Direct Business)	System to process payments & receipts for direct business on the mainframe.	KC-NITC - to be retired by 9/30/98	Fiscal Operations & Systems Division employees.	None	TCP/IP	Financial
Debt Management (Direct Business)	System to process Due Process & Debt collection activities for RMA accounts on the mainframe.	KC-NITC - to be retired by 9/30/99	Fiscal Operations & Systems Division employees.	None	TCP/IP	Financial
Loss Adjuster Payment System (Direct Business)	Payroll system for Loss Adjuster Contract subcontractors for direct business on the mainframe.	KC-NITC - to be retired by 1/1/99	Fiscal Operations & Systems Division employees.	None	TCP/IP	Financial
Corporate General Ledger System	Automated accounts & reporting of RMA financial activity on the mainframe. Being reengineered to the SUN environment.	KC-NITC - to be replaced by 10/1/98	Fiscal Operations & Systems Division employees.	None	TCP/IP	Financial
Direct Business Sales Acreage Loss Sales & Service Contractor Interface System/SALAMI	Pre-accounting process for direct business accounts receivable on the mainframe.	KC-NITC - to be retired by 9/30/99	Fiscal Operations & Systems Division employees.	None	TCP/IP	Financial
Reinsurance Accounting System/RAS	Payment & receipt processing for RMA reinsured company agreements.	Kansas City - SUN SPARC2000	Fiscal Operations & Systems Division employees.	Reinsured companies receive payments, reconciliation information and other financial information	TCP/IP/HTTP	Financial
Written Agreement System	Input of legal agreement for insurance coverage outside of actuarial structure.	SUN Solaris in each RSO	Field employees currently. Eventually other employees will be able to access data.	None	TCP/IP	All areas
GYC System	System to collect Grower Yield Certification experience data on producers growing perennial crops and maintained as producer history data base.	SUN Solaris in each RSO	RSO employees	None	TCP/IP	RSO
FCI-33 Supplement System	Subsystem of AFS. Supersedes FCI-35 as supplement to county maps. Application produces rules pages and supplements that amend maps based on	Kansas City - SUN SPARC2000	RSOs, Actuarial Division	None	TCP/IP/HTTP	All areas

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
	legal description of land.					
Peanut & Tobacco Classification System	Reclassifies producer peanut & tobacco yield to Actual Production History (APH) standard. Supersedes FCI-35 for yield and rate determination.	Valdosta, Oklahoma City and Raleigh RSOs	Valdosta, Oklahoma City & Raleigh RSOs, Actuarial Division	None	TCP/IP	All areas

Rural Development (RD)

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
Ad Hoc Reporting System (AHRS)	This application allows users to access selected management and accounting system data so they can create reports that meet their particular requirements.	Kansas City, MO	HQ, SO, RO	FSA	TCP/IP	ALL
Automated Multi-Housing Accounting System (AMAS)	This is the official accounting system for direct multifamily housing projects.	Kansas City, MO	HQ, SO, RO		TCP/IP	Multi-Family Housing
Cable TV Loan Accounting System (CATV)	This system provides for billing and collections of the Cable TV Loan Program.	Washington, DC	HQ		TCP/IP SNA	Rural Utilities Service
Community, Utilities, and Business Systems (CUBS)	This is a modernized community, utilities, and business direct loan accounting and management information system.	Washington, DC	HQ		TCP/IP	Business and Industry, Community Facilities, and Rural Utilities Service
Dedicated Loan Origination and Servicing System (DLOS)	This is the official accounting system for direct single family housing programs.	Kansas City, MO	HQ, SO, RO		TCP/IP	Single Family Housing
Executive Information System (EIS)	This system provides an automated tool for senior executives in the National and State Offices to monitor their program areas and critical mission goals.	Kansas City, MO	HQ	FSA	TCP/IP, X.25 Async	ALL
Federal Financing Bank Loan Accounting System (FFB)	This system provides authorization for advancing approved FFB funds to borrowers, bills borrowers, processes payment collections, maintains prepayments, and manages irregular borrower situations.	Kansas City, MO	HQ		TCP/IP SNA	Rural Utilities Service
Guaranteed Loan Accounting System	This is the old official accounting system for	Kansas City, MO	HQ, SO, RO		TCP/IP and X.25	ALL

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
(GLAS)	guaranteed loans for all programs.					
Multi-Family Integrated System (MFIS)	This system assists in the monitoring and management of the Multi-Family loan program.	Multiple locations	HQ, SO, RO		UNIX	Multi-Family Housing
Multiple Tenant File System (MTFS)	This system provides a method of tracking and monitoring the occupancy status and rental assistance for each multiple family housing project.	Multiple locations	HQ, SO, RO		UNIX	Multi-Family Housing
New Guaranteed Loan System (NGLS)	This is a complete full-capability business, financial, and management information system supporting all operational requirements for Rural Development and Farm Service Agency guaranteed loan programs.	Kansas City, MO	HQ, SO, RO	FSA	XPERT TCP/IP	ALL
Ordering, Tracking, and Inventory System (OTIS)	This is an inventory control system for computer hardware and software.	Kansas City, MO	HQ, SO, RO		TCP/IP and X.25	ALL
Program Loan Accounting System (PLAS)	This is the official system for over 30 direct loan and grant programs made and serviced by Rural Development and Farm Service Agency.	Kansas City, MO	HQ, SO, RO	FSA	TCP/IP and X.25	Business and Industry, Community Facilities, and Rural Utilities Service
Rural Community Facilities Tracking System (RCFTS)	This is an on-line system designed to provide primarily nonfinancial information on Community Facilities, Water and Waste Disposal, and Business Programs applicants/borrowers.	Kansas City, MO	HQ, SO, RO		XPERT	Business and Industry, Community Facilities, and Rural Utilities Service
Rural Telephone Bank Loan Accounting System (RTB)	This system provides authorization for advancing approved RTB funds to borrowers, bills borrowers, processes payment collections, maintains prepayments, and manages irregular borrower situations.	Kansas City, MO	HQ		TCP/IP SNA	Rural Utilities Service
Rural Utilities Loan Accounting System (RUS)	This system provides authorization for advancing approved Rural Electric and Telephone funds, bills borrowers, processes payment collections, maintains prepayments, and manages irregular borrower situations.	Kansas City, MO	HQ		TCP/IP SNA	Rural Utilities Service

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
Audit Report Tracking System (ARTS)	This system tracks the resolution of recommendations for corrective actions resulting from internal control and evaluation reviews and external Agencies.	Kansas City, MO	HQ	FSA	3270	Rural Utilities Service
Automated Field Management System (AFMS)	This is a menu-driven system that allows field offices to run 3B2 applications.	Multiple locations	HQ, SO, RO		Xpert, X.25	IRM Support
Central Records Imaging Systems (CRIS)	This provides a retrieval system for Rural Development's official documents.	Kansas City, MO	HQ		Novell	ALL
CPA System (CPA)	This system tracks each Rural Utilities Service borrower's auditing firm and frequency of audits.	Kansas City, MO	HQ		3270	Rural Utilities Service
Document Management System (DMS)	This system provides assistance in tracking documents routed throughout the National and Finance Offices.	Kansas City, MO	HQ	FSA	3270	Business and Industry, Community Facilities, Multi-Family Housing, and Single Family Housing
Equal Opportunity Compliance Tracking System (EOS)	This is a database of customer's civil rights complaints made to Rural Development.	Kansas City, MO	HQ		UNIX	Rural Utilities Service
Expert File Transfer (XFT)	This system provides the capability for field offices to transfer files from one office to another.	Multiple locations	HQ, SO, RO		Xpert, X.25	Rural Utilities Service
Industry Interface	This transfers data from a non-Rural Development data base to a Rural Development data base.	District Office	HQ		TCP/IP Async	Multi-Family Housing
Loan Document System (LDS)	This is a tracking system for documents used in connection with the Rural Utilities Service loan programs	Kansas City, MO	HQ		Wangnet/Vines	Rural Utilities Service
Postal Mail Cost System (PMCS)	This system produces reports of mail costs by state.	Kansas City, MO	HQ		3270	IRM Support
Project Resource Management System (PRMS)	This system monitors development and maintenance tasks and non-project related time assigned to Information Resources Management organization.	Kansas City, MO	HQ		TCP/IP	IRM Support
Request for Alteration Tracking System (RFATS)	This system provides tracking and reporting capabilities of RFA's and Production Problem Reports.	Kansas City, MO	HQ		TCP/IP	IRM Support

Application	Description	Location	Agency Users	Ext. Users	Protocol	Program Area
RUS Borrower Statistics (RUSSTATS)	This system provides various statistical information from the three major Rural Utilities Systems.	Kansas City, MO	HQ		TCP/IP	Rural Utilities Service
RUS Management Information System (RUSMIS)	This system provides special management reports executed on recurring or as needed basis.	Kansas City, MO	HQ		3270	Rural Utilities Service
RUS Query System RQS	This provides query information on the Rural Utilities Service loan programs.	Kansas City, MO	HQ		TCP/IP	Rural Utilities Service
Warehouse Inventory System (WIMS)	This system supports the warehouse inventory function for office materials/supplies.	Kansas City, MO	HQ		X.25	Inventory and Evaluation
